

DROUGHT

- Never waste water, use it to water your indoor plants or garden especially in summers.

- Repair dripping taps by replacing washers.
- Check all plumbing for leaks and get them repaired.
- Choose appliances that are more energy and water efficient.
- Plant drought-tolerant grasses, shrubs and trees (plants that thrive on less water).
- Install irrigation devices that are most water efficient for each use, such as micro and drip irrigation.

- Consider rainwater harvesting wherever practical.

- Avoid flushing the toilet unnecessarily
- Avoid letting the water run while brushing your teeth, washing your face or shaving etc. Use buckets instead of showers while bathing.
